JOÃO MENDONÇA

FULLSTACK DEVELOPER

ABOUT ME

I'm a young dreamer, self proclaimed nerd and a goal driven individual. I'm looking for an opportunity with which to prove my worth in the field of software development and continue my cycle of self improvement.

I have long since fallen in love with all technology related novel matters and programming in specific. Give me a chance at your code and I will do my utmost and beyond to improve both what I'm given and my sourcerer skills.

PROJECTS

JavaBank

Fullstack application built in Java **Spring MVC** with a **Client/Server** architecture and **Database transactions**. Employs the following technologies:
Maven, Hibernate, Java Persistence API, Spring REST, Spring MVC, Tomcat, JUnit, Mockito, MySQL, Rest.
